

David

House 69 - Ian Batty

Contact specifies Karumba Deluxe and a
Karumba standard has been installed.

Ian wants a Karumba Deluxe installed. Can
you raise this with Ross today?

Urambi Village Body Corporate Committ
Urambi Village,
Kambah, ACT 2902.

14 August 1980.

Dear Sir,

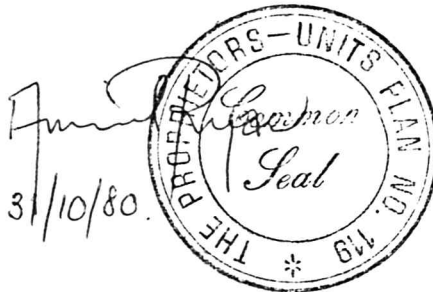

Installation of fire-place , House 69

This letter is to certify that the Urambi Village Body Corporate Committee gives Mr I. Batty Permission to install a freestanding fireplace in House 69, Urambi Village, Crozier Circuit, Kambah.
Several similar fireplaces already exist in Urambi Village and, assuming that his proposal meets all your criteria, it breaches none of our requirements.

Yours faithfully,

Charles Ironside,
Chairman, Structures Committee,
Urambi Body Corporate Committee.

Secretary: Urambi Village Body Corporate
Committee.

Jenny Noyce
 Uambi Body Corporate
 Parking and Structure Committee

Dear Jenny;

In July I sold my Uambi house, No. 69 to Mr Lyon Vidler and agreed to have the fireplace approved by Department of Capital Territory. I have had plans drawn up but DET wish to know that the Uambi Body Corporate is in agreement. For this they need to see the Uambi Seal on such a document. For this reason the attached letter from Charles was not enough. Could you either stamp his letter with the seal or simply draw a new letter.

The touching part of all this is that the fireplace is already installed and operating, but to satisfy the bureaucracy we must all pretend that its about to happen even though they know otherwise.

Yours sincerely
 Ken Betts
